

RFID READER

Bitrek's RFID reader is an IP67 device, with RS 485 and Bitrek CAN interface, regularly used for driver ID and access control systems. It supports up to 1 000 000 highest protected MiFare cards, and operation frequency is configured in a specific way to avoid scanning by grabbers. Also, the card reader supports encryption as a second layer of protection.

Certified in EU

Office and warehouse in Warsaw, Poland.

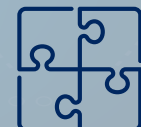

24+ months warranty

Compatible with any software

Free WEB application for remote updates.

Device can be modified for your project requirements.
